

IR SERVICE

PICS Telecom's Investment Recovery (IR) Service expertly transforms your surplus telecom equipment into valuable assets, demonstrating our commitment to sustainability in the telecom services sector.

BENEFITS

- **Financial Return on Assets:** Unlocking the hidden financial potential in unused assets for a better return on investment.
- **CSR Alignment:** Our eco-friendly practices support your company's sustainability goals.
- **Assured Data Protection:** Guaranteeing the highest level of data security throughout the recovery process.
- **Promotion of Circular Economy:** Contributing to a sustainable future through ethical recycling.
- **Optimized Management of OEM Equipment:** Ensuring the best possible handling and valuation of your specific equipment.
- **Expanded Market Reach:** Our global presence provides a wider market for your surplus equipment.
- **Efficiency & Value Optimization:** Our custom solutions ensure efficiency and maximize the recovery of value from your assets.

OVERVIEW

- **Expert Evaluation & Re-Marketing:** Specializing in the assessment and re-marketing of surplus telecom equipment.
- **Eco-Friendly Practices:** Strict adherence to standards, underlining our commitment to environmentally responsible operations.
- **Comprehensive Data Security:** Ensuring the security of all data associated with your assets.
- **Ethical Recycling:** Strict focus on sustainability to lessen the impact of traditional e-waste disposal.
- **OEM Expertise:** In-depth knowledge in handling equipment from leading brands like Cisco, Juniper, Nokia, Ciena, Infinera and others.
- **Global Network & Multilingual Team:** Facilitating effective management and communication across various markets worldwide.
- **Tailored Recovery Strategies:** Customized solutions designed to meet your unique business needs.

OUR DEDICATION TO QUALITY AND ENVIRONMENTAL RESPONSIBILITY

PICS Telecom is a leader in quality, environmental stewardship, and data security. We are committed to bringing technology full circle through innovative, sustainable telecom solutions and a steadfast commitment to eco-friendly services.
